WORK EXPERIENCE

React.js Developer

Adaptivit

09/2019 – Present

Prishtina

- Developing Websites
- I'm responsible for developing and implementing user interface components using React.js. Recently working with Workflow such as Redux and WebPack. We also use agile methodologies and GitLab to deploy the code. I'm the only one responsible to manage Jira (Creating tasks, sprints and documenting the project).

React Native Developer

Elephant Apps, ICK

01/2019 – 07/2019

Prishtina

- Developing Android / IOS mobile products
- I was responsible for developing, implementing and rendering user interface components for mobile. I was also responsible for improving the performance and code with the latest features as Hooks or functional components at the time. We have used the Agile methodologies, Jira for managing the project and GitHub to deploy the code. We had to develop the project based in SOLID principles about React Native Architecture.

Quality assurance

Develosity

11/2017 – 01/2018

Tetovo, Macedonia

I was responsible for creating manual tests and testing the functionality of implemented features in the project. I had to make reports for the company and manage sprints and tasks in Jira software.

Internship Business Support & Service-Application support IPKO

06/2017 – 07/2017

Fushe Kosove,

I was responsible to support technical assistance to employees within company. I had to maintain and repair IT systems, to resolve network issues, to format their computers and laptops, to install and configure hardware as well as software. I had also responsibility for the employees working at other points of the company
